TECHNICAL SKILLS

Programming Languages: JavaScript ES6, TypeScript
Frameworks: ReactJS, NextJS, HTML5, CSS3, Sass, Redux Toolkit, React Query, NodeJS, ExpressJS
Databases: MongoDB, PostgreSQL
Developer Tools: Git/Github, Docker, Linux, Jira, Postman, Jenkins, AWS(S3, Lambda)

EXPERIENCE

Auriss Technologies   March 2024 – Present
Software Engineer – Cloud Security Management   *Remote*

- **Engineered dashboards and detailed service pages** for multi-cloud environments using React, TanStack Query, and Redux ToolKit, featuring efficient API handling and reusable components.
- Developed **reusable and interactive UI components**, reducing feature development time by **40%** and improving page load performance and scalability.
- Integrated **WebSocket-based real-time chat** and **SAST scanning workflows** using **React** and **Node.js**, reducing debugging and issue resolution time by **50%** through instant visibility into code vulnerabilities.
- **Constructed interactive relationship graphs** using D3.js to visualize service interconnections across cloud providers, improving security visibility and architectural understanding.
- **Designed and implemented backend features** for a Cloud Security Management platform using Node and Express, enabling users to monitor cloud services and remediate security gaps. Optimized incident response time by **30%**.
- **Automated cloud monitoring** using AWS Lambda for service data extraction, reducing manual tasks and increasing operational efficiency by **40%**.

Software Engineer Intern – Monitoring and Shield Modules   December 2022 – February 2024

- Built an internal **Monitoring tool** using React, Context API, and TanStack Query to track the status of all microservices, reducing troubleshooting time by **50%**.
- Created multiple dashboards in the **Shield module** using React and ECharts to establish a visually intuitive interface, enhancing the efficiency of the company auditing process.
- Implemented and maintained **20+ REST APIs** using Prisma ORM and PostgreSQL, improving data retrieval speed by **30%** and enhancing overall system responsiveness.

PROJECTS

Product Hunt | *NextJS, TypeScript, Postgres, TailwindCSS, NextAuth, Stripe*   ⌗ 🔗

- Built a subscription-based platform for developers to post and showcase projects, with interactive feedback and community features.
- Integrated Stripe and NextAuth for secure payments and authentication, managing users, profiles, and subscriptions efficiently.

Dev-Overflow | *NextJS, TypeScript, MongoDB, TailwindCSS, Clerk, OpenAI*   ⌗ 🔗

- Created a real-time Q-A platform with OpenAI-powered chat for instant query resolution and smoother user interactions.
- Implemented secure auth with Clerk and MongoDB, ensuring seamless session handling and data synchronization.

EDUCATION

Birla Institute of Applied Sciences   **Aug 2019 - June 2023**
B.Tech in Computer Science and Engineering (78.9%)   *Bhimtal, Uttarakhand*

CERTIFICATION

Docker - KodeKloud Certificate
Server-side Development with NodeJS, Express and MongoDB - Coursera Certificate
